

* Schumacher Institute Conference

Systems Connections: the Wellbeing Economy and Climate Emergency

9th May 2019, 10.00 am - 4.30 pm, the CREATE Centre, Bristol

Keynote speakers:

Professor of Sustainability, Vala Ragnarsdottir -
Wellbeing Economy & Climate Emergency

Andrew Simms from the Rapid Transition Alliance - Collaborative Action for a New Economy

Jennifer Hinton, Adapt Econ II project and the Post Growth Institute - Growing the Social Economy for Strong Sustainability

The day combines presentations, discussion and activities. Themed workshops will include:

- ◆ **Psychology, Wellbeing and Change**
- ◆ **Making Peace with Nature**
- ◆ **Climate Emergency policy demands**
- ◆ **New Economy strategies**

Participants will have the chance to work with some systems approaches in these facilitated workshops. Each theme will be introduced with a short 10 minute presentation.

To see the programme for the day and to book a place please visit [here](#).

Our conference responds to the actions that society is taking in recognition of climate and biodiversity crises. We will explore how systems thinking makes sense of the many initiatives that are underway.

We follow Fritz Schumacher's belief that economic transformation must be at the heart of strategies for change.
